Warwick Arts Centre, Coventry, UK

Nowlan Selvapatt

Nowlan is an ST7 hepatology trainee on the Northwest London rotation, where he commenced his specialist training in 2010. He has completed a PhD at Imperial College on “Cost effectiveness analysis of hepatitis C case finding strategies using direct linkage into care”. He has published original research in hepatitis C as well as publications on cirrhosis and acute-on-chronic liver failure. He has completed his ST6 Hepatology ATP at King’s College Hospital and St Mary’s Hospital.
